

YOUR PENSION CONTRIBUTION RATE

SIMEKA

member of  Sanlam group

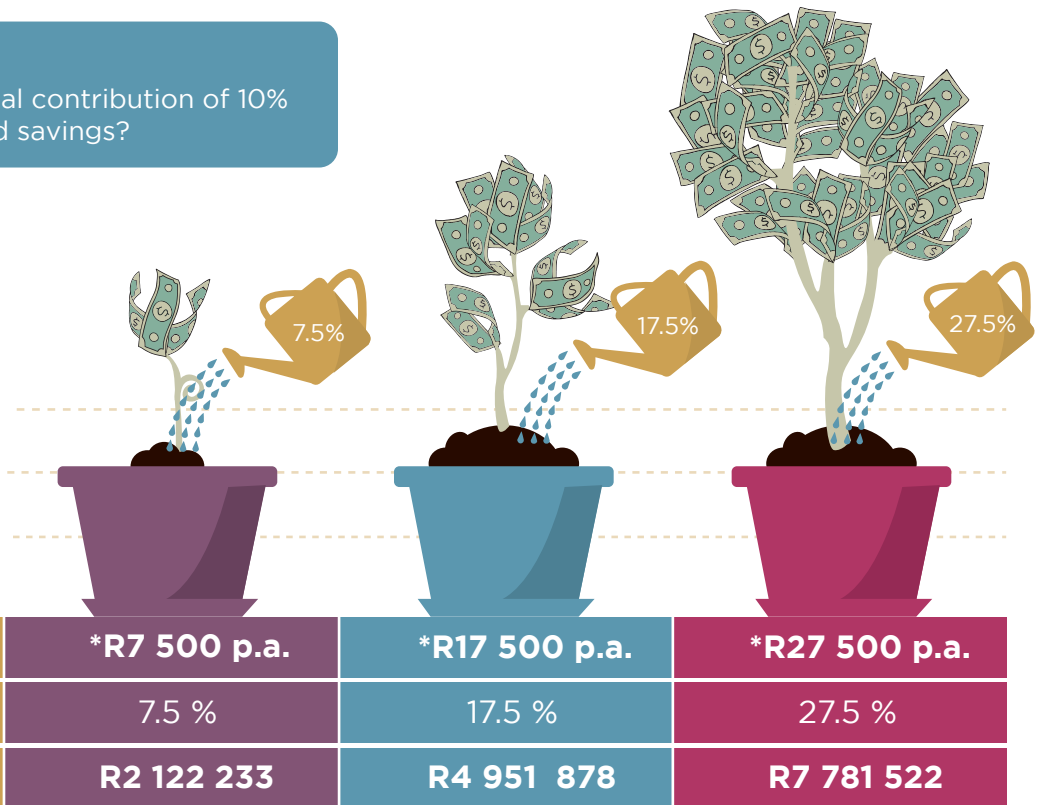

PRE-retirement

What impact will an additional contribution of 10% have on your retirement fund savings?

Based on a member:

- Earning a pensionable salary of R 100 000* per annum
- Earning an investment return of 10%* per annum
- Over an investment period of 30 years

* Does not change during the investment period

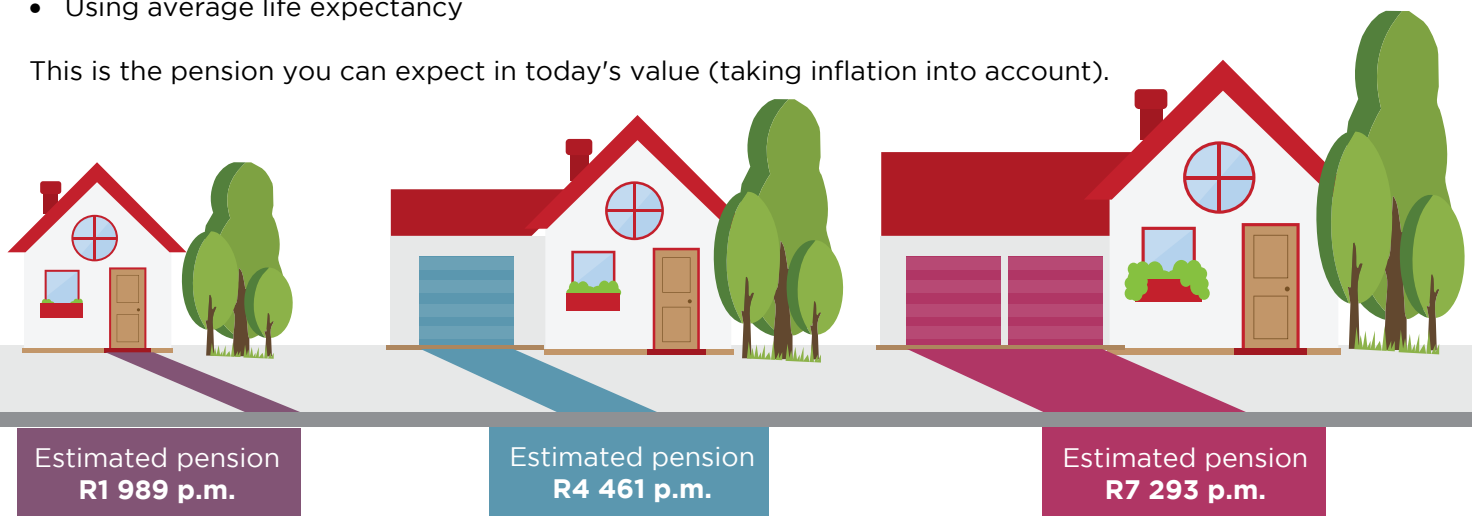

POST-retirement

Have you set your retirement goal?

Assumptions:

- Inflation of 5.25%
- Using average life expectancy

This is the pension you can expect in today's value (taking inflation into account).

You will never find a better retirement savings vehicle than a retirement fund
